only

ADS collects demographic data on all clients who receive services from ADS or who participate in ADS funded programs. The demographic attributes of these clients are summarized in our Annual Demographic Profile.

For each service area listed in the report the number of clients served represents an unduplicated count. Recent reports include an unduplicated client count across a limited number of service areas in which ADS collects client level data. As noted, some of the total columns represent a sum, or duplicated count, rather than a distinct count of clients served.

The following service areas report aggregate client data. Some service area totals may reflect a duplicated client count if a client receives services from more than one service provider, or from more than one service area.

- Alzheimer Programs
- Disability Services
- Health Promotion
- HomeSharing
- Job Placement
- Legal Services
- Outreach
- Senior Centers
- Transportation

As required by NAPIS, providers of the service areas listed below submit individual client information for all people served in their programs. ADS compiles the information to determine the unduplicated count of all clients served in one or more service areas.

- Adult Day Health
- Case Management
- Health Maintenance
- Information & Assistance
- Nutrition: Congregate, Emergency & Home Delivered Meals
- Family Caregiver Support – including Respite
