Service Type	Code	What type of meal service did the client receive?
	n2	Congregate dining
	n3	Emergency meals
Site	Text	Site name *This field only applies to programs with multiple sites. Do not include this field if your program has only one site.

**Data File Guidelines**

- Each client should have a unique identifier or Client ID. This ID # should be used consistently for the same client. ID #'s should not be reused. If a change to your data system causes ID #'s to change (e.g., you purchased a new software system) please let ADS staff know in advance of the change.
- Field names must be at the top of each column and must **exactly match** those in the data specifications.
- Fields can be in any order. You are not required to use them in the order listed above. The one exception is that the Client ID field must be the first column.
- If you do not have information for a particular field, and that field doesn't have a corresponding code or category for Unknown (usually "0" or "U"), please leave the field blank.
- Include only clients who had services during the reporting period. If a client did not have services in the reporting month, they should not appear on the report. Do not keep them on the report with a unit of "0".

**Submitting Data Files**

- Providers will upload data files to City of Seattle's secure ftp server. Contact your contract specialist for information on how to access this server.
- Please send your contract specialist an email letting them know that when you have uploaded the file.
- Data files may be submitted in either spreadsheet (Excel) or delimited (e.g., csv) format.
- Use a unique name for each file that clearly identifies both the provider and the service month. For example: MSM\_Jan2011.xls for My Service Mind's January 2011 data file.
- Data files with errors will be sent back for corrections.
- Data files are **due by the 10<sup>th</sup> working day** of the month. Payment of invoices is contingent upon receipt of all required reports, including monthly data files.
