Representatives from three local “virtual villages” will describe the advantages for people who want to age in the home and community of their choice. Learn the answers to these questions:

- What is a “virtual village?”
- How does a “virtual village” help older adults age in place and create community?
- What models already operate in our area? How are they similar and how do they differ?
- What community-building activities and services do villages provide?

Seating is limited to 50. RSVP to
