- 3. Committee work: Continue Discussion from last meeting:** **Tamsen**
 - There is a consensus that Seattle needs a HUB – for connecting older adults with opportunities to engage.
 - How can we use specific outreach events (e.g., food related, intergenerational, etc.) to introduce and begin implementing the idea of the HUB – an *in-person social network* for older adults?
 - How do we include the importance of multilingual access to neighborhood resources?
 - Rebecca suggested that the next iteration of the Northwest Center for Creative Aging could possibly become such a HUB.
 - Carol shared the 10% (Genetics), 20% (Health Access), 30% (Lifestyle), 40% (Social Determinants) model. The HUB would need to encompass the last 3 “buckets” to be of benefit to older adults.

- 4. Goals and next steps.** **All**
