Transportation Summit

Mobility for All

Please join us for this important event to discuss the challenges of finding transportation in King County. Come contribute to our group discussion by sharing your experiences and insights. We believe the information we learn from these events will lead to improvements in the customer experience of finding and securing transportation for older adults, people with disabilities, and caregivers. Anyone is welcome! We hope to bring together a diverse group of people to brainstorm ways to improve the process of finding and securing transportation for the target populations.

Hopelink encourages everyone to participate, regardless of ability. For accommodations, accessibility information, or more general information, contact:
