Network Vision Statement:
All older adults, individuals with disabilities, and their families have the support and services needed to thrive in King County.

Network Agreements:
Communication
Accountability
Respect
Equity

All Network agencies agree to the following to achieve our network vision:

• Organize trainings to strengthen skills and knowledge of direct service staff
• Practice the principles of C.A.R.E. in how we are living our agreements and addressing issues.
• Participate in outreach activities to promote awareness of network services, seek opportunities for shared outreach with network partners. Honor leadership of specific organizations of specific community targeted for outreach. Plan together to push out promotions to emphasize network and not individual agencies.
• Refer clients to agencies that can best meet client needs (language, cultural competency, etc). Create agreements on interpretation support between agencies.
• Practice a Person-centered approach to client services. Focus on relationship building and trust for network partners.
• Create system for measuring success, uniform measures, quality over quantity in the spirit of equity. Create client feedback surveys and a common network goal.
• Participate in developing a client referral protocol and follow the protocol.
