Data File Guidelines

- Each client should have a unique identifier or Client ID. This ID # should be used consistently for the same client. ID #'s should not be reused. If a change to your data system causes ID #'s to change (e.g., you purchased a new software system) please let ADS staff know in advance of the change.
- Field names must be at the top of each column and must exactly match those in the data specifications.
- Fields may be in any order, with the exception of Client ID, which must be the first column in your data file.
- If you do not have information for a particular field, please leave the field blank or use the appropriate code for Unknown. There must be a first and last name for every client.
- Include only clients who had services during the reporting period. If a client did not have services in the reporting month, they should not appear on the report.

Submitting Data Files

- Submit data files to your contract specialist via secure email or the City's Secure FTP site. Contact your contract specialist for more information.
- Data files may be submitted in either spreadsheet (Excel) or delimited (e.g., csv) format.
- Use a unique name for each file that clearly identifies both the provider and the service month. For example: CISC_Health_Jan2020.xls.
- Data files with errors will be sent back for corrections.
- Data files are due by the 10th working day of the month. Payment of invoices is contingent upon receipt of all required reports, including monthly data files.
