

Community First Choice / MAC & TSOA Personal Emergency Response System and Add-Ons Basic PERS & Assistive Technology

When to Authorize

Authorize installation of basic PERS when the service is necessary to enable a high-risk client to secure help in the event of an emergency and the client:

- ✦ Lives alone in his/her own home;
- ✦ Is alone, in his/her home, for significant parts of the day and have no regular provider for an extended period of time; or
- ✦ Has no one in the participant's home, including the participant that can secure help in an emergency

PERS Add-Ons:

Three additional devices are available for clients who need more assistance to adhere to their medication regimens and/or to help caregivers keep track of clients who tend to wander.

These add-ons to the basic PERS are paid for under the client's \$550 annual Community First Choice budget (as assistive technology), and are tracked by the case manager in the CFC Annual Calculator screen in CARE.

Medication Reminders or Medication Dispenser eligibility:

- ✦ Client must be on CFC or MNIW and eligible for a PERS
- ✦ Client cannot have caregiver available when medications need to be taken
- ✦ Client must be able to take his/her medications independently
- ✦ For the reminder/dispensing unit, the client, family member/caregiver, pharmacy, etc must be able to fill the machine
- ✦ PERS cannot be used solely for the purpose of medication reminders

GPS tracking device eligibility:

- ✦ Client must be on CFC or MNIW and eligible for a PERS

- Client has a documented history of impaired memory and wandering or exit behavior in "current status" of CARE or
- Client has a dementia diagnosis and wandering/exit seeking behavior in "current status" in CARE

Fall Detector eligibility:

- High risk of falling determined by the CARE assessment tool for clients fall risk level or by the case manager assessment from a client's doctor, OT, PT, or other medical professional
