

Client Training Services

When to Authorize

Service provides client training by licensed and certified providers with expertise in the client's training need. **Use this service in accordance with the ALISA Long-Term Care Manual Chapter 7d and ensure:**

- The client's training need is identified in the comprehensive assessment; and
- The training is provided in accordance with a therapeutic goal in the client's service plan.

Additional Information

Only 20 hours (80 ¼ hr units) can be authorized in a six-month period. You may authorize more than one service in the 6-month period such as PT and nutrition counseling as long as the 20 hours/6-month limit is not exceeded.

- This service may be used to meet a client's intense service need by proration and authorization of the hours over a shorter period, or the 20 hours may be prorated and authorized to meet a client's ongoing need throughout the entire six-month period.
- Examples of training include nutrition evaluation and counseling, adjustment to a serious impairment, self-management of personal care needs, medication management, development of a client's skills to work with care providers, and more.
